# *Advantages of the* American College of Physical Education

**T***The College is located in Chicago, the great metropolis of the west and the second largest city in America. This great city affords in addition to its unsurpassed advantages for culture and recreation the following special opportunities to students of physical education:*

Access to the Art Institute, Museums and great Public Libraries. A chance to attend contests on the big athletic fields of great Universities. An opportunity to study the Chicago playground system, the greatest in the world. Unusual opportunities for practise teaching in the many institutions in Chicago which have physical activities.

We claim to have the finest college building in the country for the purpose of physical training. Two spacious halls, one of which is an auditorium 125x70, seating over 1,500 people, gives ample room for drills of various kinds. The other gymnasium is 90x60 feet in size, giving a clear floor space of 5,400 square feet. Both are well lighted and ventilated.

## *Other Special Advantages Include:*

A well appointed women's dormitory with wholesome environment. A broad curriculum including every phase of physical education, instruction being given according to the best modern ideas of physical training.

A strong faculty of specialists, many of them leading instructors in physical training in the public schools, colleges, universities and playgrounds of Chicago.

A well organized free Appointment Bureau to secure positions for the graduates of the College.

The College is on the ACCREDITED LIST of institutions authorized by the Board of Education of the City of Chicago to offer work to teachers for promotional credit.

The College is also on the ACCREDITED LIST of schools whose graduates are admitted to the examinations for certificates as teachers of physical education in the Chicago public schools.

As the Chicago requirements are among the highest in the country, the work of the American College will undoubtedly satisfy the educational standards set in other cities.
